arularavinth253@gmail.com | <https://aravinth-portfolio.vercel.app/>

I'm a Full Stack Developer with a strong foundation in Data Structures and Algorithms, adept at handling all aspects of web application development. Proven expertise in Java, HTML, CSS, and JavaScript. Successfully completed 240+ Leetcode and 500+ Newton School platform questions. Seeking a challenging role in software development at a reputed company.

PROJECTS

Quora Clone (Oct2023 – Dec2023)

- **Tech Stack:** React Js, Redux-Toolkit, SCSS, Javascript, Tailwind Css, Material ui
- Developed a web application emulating Quora's functionality using React for a seamless sign-up/log-in process.
- Implemented features such as user authentication, personalized profiles, and organized question threads.
- Responsive design for optimal user experience across various devices.
- Link-> <https://quora-aravinthan-project.vercel.app/>

JioSaavn Clone (Sep2023 – Oct2023)

- **Tech Stack:** HTML, CSS, JavaScript, React, Context api.
- Created a music streaming app mirroring JioSaavn.com's key functionalities.
- Features include user authentication, music browsing, favoriting, seamless audio playback, and integration with APIs.
- Added subscription page and optimized for a smooth user experience.
